DETAILED ACTION

112 Rejections Withdrawn

The rejection of claims 2, 7 and 8 under 35 USC 112, second paragraph, outlined in the previous two Office Actions, has been overcome by applicant's amendment. The examiner notes for clarity of the record that this rejection should have been a rejection of claims 1, 2 and 7. The examiner regrets the error.

Double Patenting Rejections Withdrawn

The rejection of claims 1-10 under the judicially created doctrine of obviousness-type double patenting, outlined in the previous two Office Actions, is withdrawn.

Objections Withdrawn

The objection to claims 11-22, outlined in the previous Office Action, is withdrawn. The objection is moot.

Allowable Subject Matter

Claims 1-22 are allowed. The following is an examiner's statement of reasons for allowance:

The closest prior art appears to be US 5,274,159, discussed by applicant in the specification and cited in an IDS, which teaches water-soluble destructible fluorinated nonionic surfactants that are useful as stabilizers for emulsions (abstract; column 4 line

10). The reference neither teaches nor suggests, however, the instant silanes. Nor would it have been obvious to one of ordinary skill in the art to modify the compounds of the prior art in order to arrive at those of the instant invention. There is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
